For the past 10 years, Cooperstown TREP$ gives students hands-on business education. Kids gain life skills, apply what they learn and boost self confidence through participation in 7 workshops and our popular Marketplace event during Winter Carnival weekend! Throughout this winter season, you will:

- Create your own product or service and the materials to promote it.
- Get feedback and advice about your product from successful local business people.
- Sell your product or service at the exciting TREP$ MARKETPLACE and Make Some Money!!
- Have the option to participate in TREP$ MARKETPLACE any or every year until you graduate. You can sell the same product, or create a new one. You will NOT need to go to the workshops again.
